Fluor (max.)	1.5 mg/kg	Biotin (min.)	5000 mcg/kg
Vitamin A (min.)	150 000 I.U./kg	Pyridoxine (min.)	150 mg/kg
Vitamin D3 (min.)	30 000 I.U./kg		

Feeding rates

Feed this vitamin and mineral enriched supplement to growing horses 6 months of age and older. Using the scoop supplied in the pail, feed up to 3 scoops per feedings, twice daily (ie. 6 scoops per horse per day) as a top dress or mix into the grain concentrate portion of the ration (each level scoop contains 30 grams). This quantity ensures that your horse receives the proper quantity of vitamins and minerals. Do not feed Equi22 on a free-choice basis, and keep stored in a safe place with the lid firmly attached.

Important

Feed salt on a free-choice basis separately. This product is designed as a supplement and not a replacement of a complete and balance grain-based feed. Feeding vitamins other than vitamin A,D,E, riboflavin, pyridoxine and thiamin may not have a beneficial effect.

Characteristics

Pelleted	<ul style="list-style-type: none"> Increases palatability. Reduces dust.
Fortified with biotin	<ul style="list-style-type: none"> Promotes healthy hooves. Promotes healthy hair coat.
Contains 22 added vitamins and minerals, including Vitamin E	<ul style="list-style-type: none"> Increases vitamin and mineral intake for better health and appearance.

Multi-Attributes	Wheat Shorts
Flavour/Binder	Pellet Binding Agent

* Ingredients are not in order of their inclusion rate.

- Purina recommends analyzing your hay and balancing the ration accordingly.
- Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.
- Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.
- Make any feed change gradually over a 7 to 10 days period.
- Daily ration should be divided into 2 and preferably 3 separate feedings or more.
- Use a scale to weigh your feed so you know exactly how much your horse is being fed. Do not feed by volume.
- These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Consult your Purina Equine Consultant if necessary.
- Follow sound management practices along with optimal preventive veterinary medicine.

Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
